

# Technical Checklist for Tests, Drills, and Exercises with EEW

NO.	ACTIONS	COMPLETED
<b>BEFORE THE TEST, DRILL, OR EXERCISE</b>		
	Test your entire system to check its ability to alert people to take an immediate protective action or to trigger an automated machine-to-machine action.	
	If applicable, contact your ShakeAlert EEW Technical Partner to assist with testing and trouble-shooting.	
	Test the audio and video that have been downloaded for the drill and ensure they play as expected. (See Appendix B for these resources.)	
<b>DURING THE TEST, DRILL, OR EXERCISE</b>		
	Ask your organization's ShakeAlert EEW Technical Partner to assist with any technical issues that arise during the drill or exercise.	
<b>AFTER THE TEST, DRILL OR EXERCISE</b>		
	Work with your ShakeAlert EEW Technical Partner to address any technical issues that occurred during the test, drill, or exercise.
