Post-ShakeAlert® Message Summary

Earthquake:

Advanced National Seismic System (ANSS):
M 4.1 - 217.5 km (135.1 mi) W of Port Alberni

ANSS location:	Not available at report time
ANSS depth:	Not available at report time
ANSS origin (Local):	Not available at report time
ANSS origin (UTC):	Not available at report time
ShakeAlert first Message (UTC):	2026-11-11 01:45:54.5
ShakeAlert Event ID:	ew1794361550

ShakeAlert Messages Issued (after origin time):

Initial:	Not available
Peak:	Not available
Final:	Not available

ShakeAlert System Magnitude Estimates:

Initial:	M 4.1
Peak:	M 4.1
Final:	M 4.1

ShakeAlert System Location Accuracy:

Initial:	Not available at report time
Peak:	Not available at report time
Final:	Not available at report time

Wireless Emergency Alert:

Magnitude below threshold for WEA system.
WEA alerts are distributed to the MMI 4+ area if ShakeAlert Peak M>=5.0

Number of Stations Reporting:

0 within 10 km of epicenter
2 within 100 km of epicenter
4 used in final ShakeAlert Message

Nearby Cities:

City	Distance km / (mi)	Time* sec	Shaking (MMI**)
Port Alberni	218 / (135)	--	Not felt
Victoria	333 / (207)	--	Not felt
Vancouver	340 / (211)	--	Not felt
Bellingham	389 / (242)	--	Not felt

Radius shaken before message release: Not available

Footnotes:

** Time -- Time from message release to predicted S-wave arrival at the location. "--" for weak or imperceptible shaking.*
*** MMI -- Modified Mercalli Intensity - a numeric shaking severity scale*
**** For earthquakes deeper than ~15 km, the ShakeAlert Message may be available before peak shaking reaches the surface.*

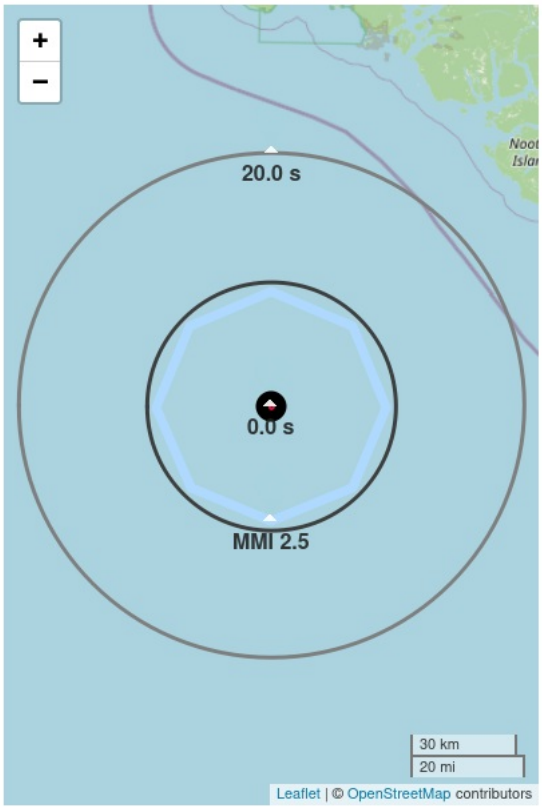

*Figure 1. Initial earthquake locations from ShakeAlert (black dot). Polygon shows estimated area of felt ground shaking**. Red circle (if shown) marks the position of the peak shaking wave at the time the Alert Message was issued***. Note, shaking takes 10 seconds to expand from circle to circle.*

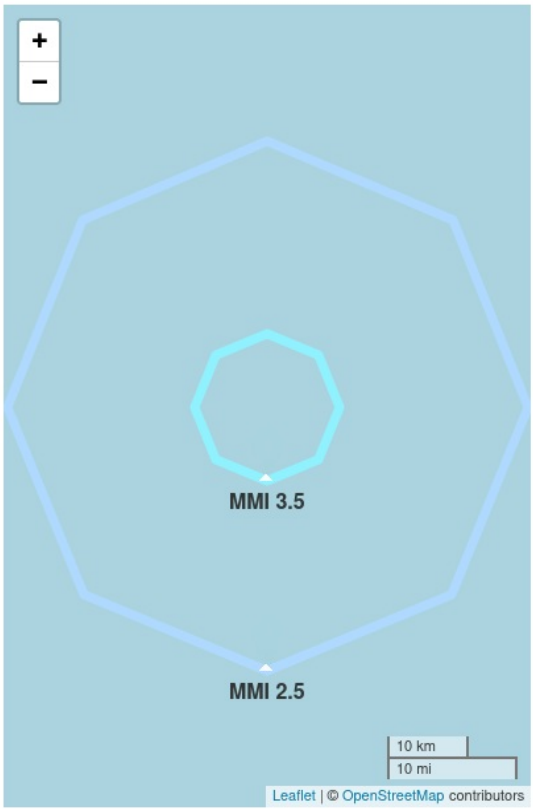

*Figure 2. Polygons show the maximum estimated extent of ground shaking for different MMI** ranges (color-coded and labeled). Shaking of MMI 3 or less is often not felt. ANSS earthquake epicenter not available.*
