

ShakeAlert® Post-Alert Summary

Earthquake:

M 4.8 - 13.5 km (8.4 mi) NE of Manteca
 ANSS origin (Local): Not available at report time
 ANSS origin (UTC): Not available at report time
 ShakeAlert alert (UTC): 2021-07-08 22:50:23.5
 ANSS location: Not available at report time
 ANSS depth: Not available at report time
 ShakeAlert Event ID: ew1625784613

Time To Alert After Earthquake Start:

Initial alert after origin time: Not available
 Final alert after origin time: Not available

Magnitude Accuracy:

Initial ShakeAlert: M 4.8
 Peak ShakeAlert: M 4.8
 Final ShakeAlert: M 4.8
 ANSS report: Not available at report time

Location Accuracy:

Initial alert: Not available at report time
 Final alert: Not available at report time

Number of Stations Reporting:

0 within 10 km of epicenter
 46 within 100 km of epicenter
 4 used in final ShakeAlert update

Nearby Cities:

City	Distance	Warning*	MMI**
Manteca	13 km (8 mi)	~4 sec	4
Stockton	16 km (10 mi)	~5 sec	3
Sonoma	66 km (41 mi)	~19 sec	2
Sacramento	83 km (51 mi)	~23 sec	2

Zone Shaken by S-wave Before Alert: Not available

Footnotes:

- * Warning -- Time between alert production and arrival of the S-wave at a chosen site.
- ** MMI -- Modified Mercalli Intensity: a scale to measure ground shaking.
- *** For earthquakes deeper than 15 km, the alert may be sent before peak shaking reaches the surface.

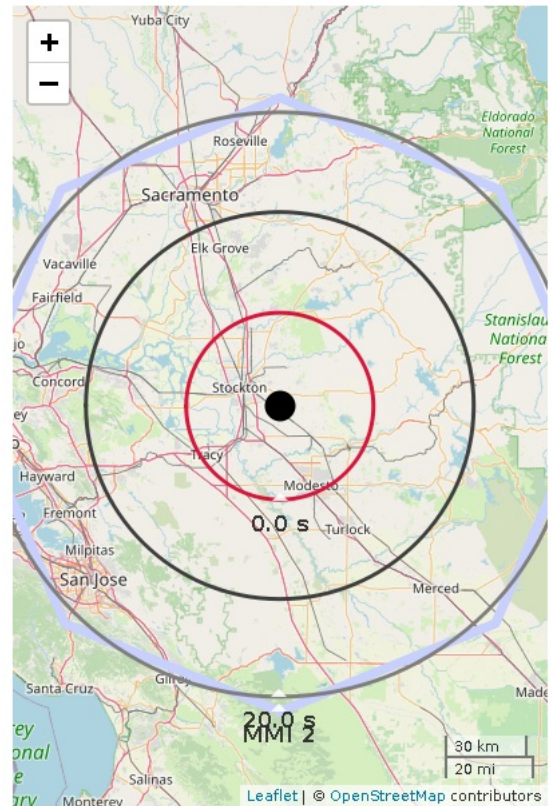

Figure 1. ShakeAlert initial earthquake location (black dot). Regional network epicenter not available. Polygon is the approximate outer range for felt ground motion. If shown***, red circle is front of peak shaking when the alert was released. Shaking takes 10 s to expand from circle to circle.

Figure 2. Polygons show shaking intensity contours for the peak magnitude ShakeAlert. Shaking of intensity 3 or less is often not felt. Regional network epicenter not available.
